1) THE SIX TCF OUTCOMES

- fair treatment of consumers of financial services and products
- financial soundness of financial institutions
- systematic stability of financial industries
- integrity of financial markets and institutions

To this end the FSP welcomes the TCF initiative and commits itself to align the FSP's organisational culture and business processes in such a way as to ensure that the six outcomes of TCF are at all times achieved.

The six outcomes of treating clients fairly will be achieved by our organisation through ensuring that:

2) OUTCOME 1

Clients are confident that they are dealing with firms where the fair treatment of clients is central to the firm culture.

POLICY STATEMENT

It is our committed objective to ensure that all our clients or potential clients can be confident that they are dealing with an FSP where the fair treatment of clients is central to the corporate culture.

We use our best efforts to ensure that at all times we, our staff members and representatives render financial services honestly, fairly, with due skill, care and diligence, and in the interests of clients and the integrity of the financial services industry.

Delivery of the TCF outcomes is a core feature of the FSP's stated values, code of conduct and ethics policy.

PROCEDURES IMPLEMENTED IN ORDER TO ACHIEVE POLICY OBJECTIVES

LEADERSHIP

- TCF is a standing item on the governing body of the FSP's meeting agenda where the FSP's approach to TCF is analysed and discussed.
- Senior management has adopted TCF deliverables and have been allocated specific responsibilities in terms thereof. Senior management in all areas of the FSP that contribute to the rendering of financial services to clients (whether directly or indirectly), understand their respective roles in delivering TCF outcomes to those clients.
- Senior management conducts regular reviews of the main business processes with a view to identifying areas that do, or may, require improved TCF deliverables. Explicit allowance has been made to allow for and consider TCF implications and deliverables during the strategic planning process of any new strategy or change in existing strategy.
- Adherence to the TCF deliverables is monitored as part of our Compliance Monitoring Programme. We ensure on a monthly/quarterly/ bi-annual basis that accurate, meaningful and timely Management Information has been produced during the period and that senior management acts accordingly. Existing tests within our Compliance Monitoring Programme aid us in demonstrating our level of compliance and adherence to the TCF outcomes. Where there are TCF action points, these will be documented and carried over to a further (minuted) meeting.

DECISION MAKING

- All requests by the FSP's governing body for the approval of product and service innovations or project expenditure include due consideration of the possible impact it may have on TCF outcomes.
- The organisation has established accessible forums or structures through which staff members and management are able to debate TCF related matters and refer any TCF questions or concerns.

GOVERNANCE AND CONTROLS

- Oversight and monitoring of TCF delivery has been explicitly assigned to the governance and control structures of the organisation tasked with risk management and the compliance function.
- Procedures have been implemented to ensure formal and regular reporting to the governing body and senior management on the progress in achieving TCF deliverables across all of the organisation's activities and functional departments.
- The management of TCF and market conduct risks are formally included in the risk management framework of the organisation and are regularly monitored and supervised by the Compliance Officer.
- Procedures have been implemented for identifying and reporting (at organisation-wide level) TCF risks or failures to senior management and the governing body.
- There is ongoing evaluation of whether the organisation's governance framework as a whole has been effective in achieving TCF outcomes.
- We have mechanisms in place to monitor and respond to changes in the broader environment such as economic and regulatory developments to enable us to proactively identify TCF related risks.

EMPLOYEE PARTICIPATION

- All staff members (including senior management) whose roles require delivery of TCF outcomes have been identified.
- Performance evaluation criteria incorporate TCF objectives and are rigorously applied at all levels.
- Staff members undergo training on TCF principles and deliverables.

- Recruitment processes have been revised to ensure staff in relevant positions will have the necessary skills to achieve the outcomes of TCF.
- All staff members are aware of the requirement to treat clients fairly. This Policy has been circulated to all staff members and staff members are encouraged to make suggestions to our TCF Champion on how the treatment of our clients might be further enhanced.

REWARD

- Remuneration is meaningfully linked to the achievement of TCF objectives, at all levels and all reward and recognition processes have been revised in the light of TCF objectives.
- Employment and service agreements have been amended and updated to permit the imposition of meaningful consequences (such as retraining, re-assignment or disciplinary action, as appropriate) for staff members or management who do not achieve agreed TCF deliverables.

MANAGEMENT INFORMATION (MI)

- Existing MI measures have been reviewed to determine which are useful for TCF monitoring and new measures have been identified where necessary (See Annexure B).
- Processes are in place to collate and summarise TCF related MI in such a way as to present a meaningful picture of organisation-wide TCF progress.
- Processes are in place to analyse and act on MI findings to improve TCF outcomes for our clients.
- We analyse and act on MI findings to identify staff training needs and to align performance management measures

COMMUNICATION

- We communicate transparently with our stakeholders (including the Regulator) on our progress in achieving TCF outcomes.
- We make information regarding our progress in achieving TCF outcomes publicly available.

Products and services marketed and sold in the retail market are designed to meet the needs of identified client groups and are targeted accordingly.

We develop and provide advice and certain intermediary services on products that fall within the categories and sub-categories of the financial products listed in Annexure A.

Our clients can typically be grouped into three broad categories:

Our product approval and product selection processes includes senior management confirmation that a product adequately meets the outcomes of TCF and that any such product will perform as clients are led to expect.

Our product approval and product selection processes also include the careful consideration of the elements listed below:

- When designing a product or selecting a product to distribute or to administer, we identify the particular client groups for which the product can be considered suitable.
- We obtain information from the product supplier regarding client groups in respect of which the product is regarded as most suitable.
- We provide our staff members and representatives with information and guidance to determine the client group/s in respect of whom the products are best suited.

- We have measures in place to evaluate the client groups' financial understanding of products or services offered or provided to them.
- We track sales to determine whether products are in fact sold to the identified client groups.
